**Landscape Tip #1 – Community Support:**

Use this landscape tip to get a double whammy! Yes, ask your local ball team coaches to see if they will participate in the following:

Need bark spread and lawns raked? Invite the team (coach / parent supervised) to complete this task (you provide the bark of course) and then make a donation to their ball team for the work that they have done. A generous donation of course! This way both the team and your yard get some goods! They do this in our community and it is great – remember though they are kids and therefore not top notch landscape quality always.

Be blessed!
